Beautiful typical Algarvian villa located in S.Clemente - Loulé to recover.

The ground floor building intended for housing, with 8 rooms and patio, water tank and two annexes to support it, has favored access to water, sewage, electricity, telephone, cable TV and fire networks. This property is located on a plot of urban land with a practically flat topography, which avoids high expenses with earth movements and accessibility, as the threshold level coincides with the land level. In addition, it borders the north; where it has an access, with a Municipal Path paved in bituminous concrete and to the East; where it has an access, with a public road paved with cement concrete, that is, it is endowed with two direct accesses to public roads.

According to the Municipal Master Plan (PDM) of Loulé, this land is located in terms of land use in Dispersed Building Areas to Be Structured; See Location Plans – Photographic Survey – which has capacity for construction, where the following parameters prevail: number of floors: 2, plus basement
